Home Safety Repair Program for Low-Income Kupuna

Repairs and home modifications include:

- Roof repair/replacement
- Replacing rotten floors, walls, framing
- Installing grab bars, railings, ramps, and non-slip strips (fall prevention)
- Tub-to-shower retrofits

"I don't know how to thank all of you, from the County of Maui Grants and Office of the Aging, to the young people at Habitat for Humanity always so happy and willing to help. I feel so blessed, not having to worry about falling through the bathroom floor or the lanai stairs. It is so refreshing to see these young people enjoy helping others in need."
